COMMUNICATION FROM THE MANUFACTURER TO THE BUYER.

Material: "lamp" in Carrara marble and stainless steel.

Product confirms to REGULATION (EC) N.2009 | 125 UE.

Warning: this user manual complies with the provisions of the decree dated April 10th 1991 n.101 "Implementation Regulations".

Product maintenance: Switch off the light and pull the mains plug. Clean the bulb with a dry cloth. Avoid the use of solvents and abrasives. For the structural components, if necessary, use 100% natural Marseille soap diluted in water, dry thoroughly.

Ecology: at the end of use do not disperse the product in the environment.

Old devices may not be disposed of with normal household waste. According to Directive 2012/19/EU, the equipment at the end of its operational life must be subjected to a regular disposal procedure. These operating instructions contain important information for commissioning and using the

product. Failure to observe these instructions for use can lead to serious injuries and damage to the device. Keep the instructions for use for later use.

Explanation of symbols: the following symbols and signal words are used in these operating instructions, on the lamp or on the packaging.

AVVERTENZA

This symbol/signal wording indicates a potential hazard with a medium degree of risk which, if not avoided, could result in serious injury or even death.

ATTENZIONE

This symbol/signal wording indicates a potential hazard with a low degree of risk which, if not avoided, could result in minor or moderate injury.

AVVISO

This signal word indicates the possibility of material damage.

This symbol indicates additional information useful for use or operation. Please read carefully.

ities or who lack specific experience and knowledge, provided they are supervised or instructed in the safe use of the article.

AVVERTENZA

Danger for children: Children are not allowed to play with the article. Keep children away from packing material. If swallowed, there is a danger of suffocation. DANGER due to electric shock. Before use, make sure that the mains voltage present matches the operating voltage required by the article (see technical data). Do not use the article if it is damaged. Avoid contact of the article with water or other liquids.

Putting into operation: open the package without using the knife. Place the marble discs and the steel on a surface free from obstacles. Insert the discs over the groove of the steel coated electrical element. Fix the lamp to the ceiling and secure the connector and the transformer inside the rosette. the light, keep your hand in contact with the apical part of the rod. To turn it off, bring the luminous system to the minimum illumination intensity and then touch the apical part of the rod again.

Symbols

Do not expose this lamp to moisture or wet conditions

Not adjustable with a traditional dimmer

Avoid the following improper uses: place on a flame or near a heat source. BETTISATTI srl declines all responsibility for damage caused to things or people deriving from incorrect use of the product. The warranty does not include any type of assistance or repair of the product or parts of it damaged as a result of incorrect use of the product itself. Excludes damage caused by transport, deterioration resulting from normal wear and tear, anomalies resulting from improper or exaggerated handling, incorrect handling and/or maintenance of materials; the guarantee loses its validity when the products are disassembled or tampered with by persons not authorized by BETTISATTI srl; the defective product must be made available to BETTISATTI srl for verification before being collected and repaired. This article can be used by people with reduced physical, sensory or mental capabilities

Connect the light device to the mains. The lamp will turn on thanks to a touch sensor positioned in the apical part of the lamp. At the first touch the lamp turns on. To vary the intensity of the light, keep your hand in contact with the apical steel part. To switch it off, bring the lighting system to minimum lighting intensity and then touch the apical part of the lamp again.
